

RPM Pizza, LLC

Enterprise Roll-out / 170+ Locations

After 2 years of extensive testing, RPM executives have installed Tune® filters enterprise-wide. In the fall of 2020, filters were installed in 170 existing stores and are being added to new locations during construction. Based on the analysis of pilot locations, **RPM anticipates a return on investment in less than 2 years and enterprise-wide savings of more than \$100,000 annually.**

When first introduced to the Tune® filter, RPM executives were skeptical but intrigued. They each installed filters in their homes and after 12 months they all reported savings of 10% or more. Given the savings in their homes, filters were installed in pilot stores for an additional 12 months of analysis.

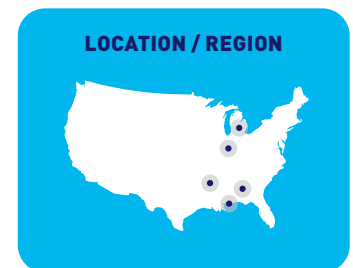

TARGET PILOT STORE Results

STORE #	INSTALL DATE	RAW KWH SAVINGS	NORMALIZED KWH SAVINGS*	ANNUAL SAVINGS
5908	3/27/19	6.00%	12.00%	\$880
5905	3/27/19	7.00%	13.00%	\$864
AVG		6.50%	12.50%	\$872
