

TGI Fridays

A full-service restaurant and popular venue, this set of TGI Fridays are owned by a franchise group operating seven locations. With this installation, their goal was to create a minimum of 5% savings in electrical usage as a test as see it's value at a single Atlanta location. Seven Tune[®] Filters were installed one in each of the seven sub panels at one location. After achieving this benchmark, three additional locations were set for installation.

DESCRIPTION

Full-service restaurant and bar, with first installation at one of seven locations.

LOCATION / REGION

EQUIPMENT / SOLUTIONS

7 Tune[™] Filters installed in all sub panels across its facility.

RESULTS

ACHIEVED THEIR GOAL OF

5%

KWh SAVINGS

tune[®]

Simple Energy Savings.

Save energy + Save electronics + Save resources = Save money
